

Going green?
Take charge.

Introducing **EcoLite™** Rechargeable Receiver.

PET STOP 

PET FENCE SYSTEMS

Safer by design. Greater peace of mind.™

Good for your pet, good for the planet, good for you.

Your pet never seems to run out of energy, and now you'll never have to worry about running out of costly batteries. EcoLite's environmentally-friendly built-in rechargeable power pack lasts up to 25 years, for less of a toll on the planet and your wallet. And because EcoLite doesn't require bulky external batteries, it's incredibly small and lightweight.

Optional night light feature

EcoLite has a built-in, super-bright LED light that can be activated in low-light or nighttime situations to monitor your pet's location. It's one more way Pet Stop helps make your training worry-free.

EcoLite's small size makes it the ideal choice for small dogs, yet is effective for even the biggest breeds.
